

YFBY: An Ode to Student Loans and the Collegiate Education System

F*ck you for encouraging me to take out more than I needed
F*ck you for not explaining the difference between subsidized and unsubsidized
F*ck you for judging my eligibility based on my parent's income and not my own
F*ck you for pretending to look out for my best interest
F*ck you for making me decide on whether to pay you, or go to the hospital
F*ck you for harassing me via phone and email
F*ck you for transferring my loans to a different company
F*ck you for asking for money back BEFORE I graduated
F*ck you for asking for money AFTER I graduated with NO job
F*ck you for asking for MORE money after I got a job
F*ck you for transferring my loans to a different company (again)
F*ck you for suggesting a 30year repayment plan
F*ck you for the high interest rates that negate the payments I was able to make
F*ck you for adjusting my repayment plan without my consent
F*ck you for suggesting a lower monthly payment as I crept toward full repayment
F*ck your shoes with the belts on them (Boondocks)
And F*ck Donald Trump
This is America sucka. The land of the free, and home of the brave
Not the sea of debt and house of enslavement
So, F*ck you from the bottom of my heart, and if you call me again I'm gonna slap the sh*t out
of you
Goodbye forever
